State Housing Initiatives Partnership (SHIP)

Florida Housing administers the State Housing Initiatives Partnership program (SHIP), which provides funds to local governments as an incentive to create partnerships to preserve affordable homeownership and multifamily housing. The program was designed to serve very low, low and moderate income families.

SHIP funds are distributed on an entitlement basis to all 67 counties and 52 Community Development Block Grant entitlement cities in Florida. The minimum allocation to participate, local governments must establish a local housing assistance program by ordinance; develop a local housing assistance plan and housing incentive development regulations or establish local policies to implement the incentive strategies; form partnerships and combine resources in order to reduce housing costs; mortgage payments within the targeted areas do not exceed 30 percent of the area median income limits, unless authorized by the mortgage lender.

SHIP dollars may be used to fund emergency repairs, new construction, rehabilitation, down payment and closing cost assistance, rental assistance, financial counseling, downs, acquisition of property for affordable housing, matching dollars for federal housing grants and programs, and homeownership counseling. Funds may be used that meet the standards of chapter 553.

A minimum of 65 percent of the funds must be spent on eligible homeownership activities; a minimum of 75 percent of funds must be spent on eligible construction activities.

Appendix E Applicant Qualification

This appendix offers guidance about eligibility determination and the documentation of income, assets and other household details. The guidance pertains to the Section 8 income definition that is commonly used by SHIP administrators. However, SHIP allows for several methods of defining income, which are listed in Section 420.9071 of the Florida Statutes: *“Annual gross income” means annual income as defined under the Section 8 housing assistance payments programs in 24 C.F.R. part 5; annual income as reported under the census long form for the recent available decennial census; or adjusted gross income as defined for purposes of reporting under Internal Revenue Service Form 1040 for individual federal annual income tax purposes or as defined by standard practices used in the lending industry as detailed in the local housing assistance plan and approved by the corporation.*

Those who administer SHIP using an alternative income definition may need to contact the Florida Housing Coalition for guidance specific to that alternative income definition.

A. Determining Household Size

Even before beginning to count the household’s income, it is important to properly count the number of people in the household. It is essential to accurately determine household size, since program eligibility is “adjusted for family size” (as defined in Section 420.9071 (1) of the Florida Statutes). The median income is based on a four-person household. The income
